

NAKPEHE OFFICER/COMMITTEE CHAIR REPORT FORM
Progress Report
(April 7, 2008)

Report #: _

Name of Office/Committee: Nominations & Elections Committee

Person Submitting Report: Shane Frehlich

Progress Report/Tasks Completed:

The Nominations and Elections committee meeting was held at the annual NAKPEPE meeting in Albuquerque in January 2008. The committee reviewed current protocols related to the process of identifying potential candidates for officer positions. In particular, the open officer positions for the upcoming year are President-elect (male), Vice President-elect (male), and Secretary (male).

The committee received input from several NAKPEHE members in terms of identifying potential candidates, and many individuals have been contacted to determine their interest in running for these positions. Discussions with these individuals are ongoing. In addition, the editor of the *Chronicle of Kinesiology and Physical Education and Higher Education* will be contacted to ensure that the open positions would be advertised in upcoming issues of that publication.

Suggestions for Future Plans Related to this Office/Committee:

In conjunction with the Technology Committee, the Nominations and Elections Committee will continue to examine the efficacy of conducting online elections, and seek to finalize the online election vendor shortly (last year the online voting procedure was conducted via Survey Monkey).

Action Required by Board:

No action required by the Board at this time.

Budget Implications:

No budget implications at the present time.
